

Green 14mm Rubber Shock Pad For Artificial Grass / Sports Fields

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: LABOSPORT
- Minimum Order Quantity: 500M2
- Packaging Details: PALLET
- Delivery Time: 10 DAYS
- Payment Terms: T/T
- Supply Ability: 500M2 /DAY

Product Specification

- Material: Rubber
- Thickness: 14mm
- Color: Green
- Style: Tile Pattern
- Name: Rubber Shock Pad For Artificial Grass
- Highlight: **Green Rubber Shock Pad,
14mm Rubber Shock Pad,
Rubber Shock Pad For Artificial Grass**

Product Description

Artificial Grass Drainage Underlay for Sports Fields Drainage Shock Absorber

Our Drainage Shock Absorber is a foundation thermoplastic rubber sheet with high shock absorption, large amount of water drainage and strong support. The original intention of this product is to help the sports venue no longer get hardened, realizing the fast installation, fast replacement and fast removing.

Properties	Specifications	Unit	Standard
Material	TPE		
Thickness	17.1	mm	EN1969:2000
Dimension for single piece	L 354*W 131	mm	Physical Measured
Color	Green/Grey		
Max force	205	N	EN12230:2003
Max tensile strength	0.47	Mpa	
Elongation	83	%	
Shock absorption	56.9	%	Advanced Artificial Athlete - CEN/TS 16717:2015.
Vertical deformation	4.9	mm	
Mass per unit area	3,812	g/m2	EN ISO 23997:20124
Water infiltration rate	>24,000	mm/h	EN 12616: 2013

Product advantages

1	Hydrophobic function to ensure smooth drainage, and no ponding in rainy days. Available for all-weather use.
2	In winter, rubber will not get brittle like plastic products, its sufficient elasticity can protect the human body from impact.
3	The shock absorbing function makes the product neither very soft to let the athletes feel weak, nor too hard to lose the protection.
4	Service life 15 years.
5	Environmental safety, and recyclable. It is real green and sustainable production.
6	Product will not get deformed. The installation is very simple, even non-professional people can complete the installation so to lower down the costs. Good to be applied for non-filling artificial grass field.
7	Available for small or difficult venues, such as building top, underneath bridge, etc.
8	The transportation of the product is convenient, flexible and fast, and also can be collected quickly.
