

Tear Resistant PE Foam Underlay Playground Soft Layer HIC Tested Safety For Player

Our Product Introduction

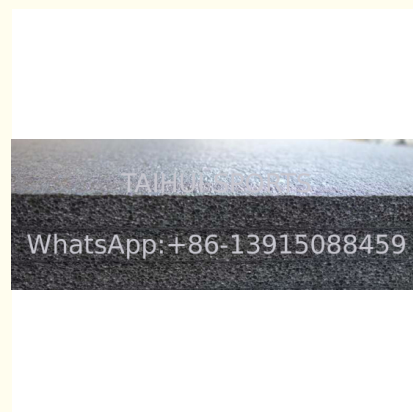

Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: LABOSPORT/SGS
- Model Number: T2510K
- Minimum Order Quantity: ACCORDING TO THE DEMAND FROM THE CUSTOMER
- Price: By negotiation
- Packaging Details: One roll Packed in recyclable PE bag
- Delivery Time: 10 days after received the deposit
- Payment Terms: L/C, T/T
- Supply Ability: 300,000 sqms per month

Product Specification

- Product Name: Shock Pad For Artificial Turf 15mm Thickness For Football Pitch Shock Absorption Vertical Deformation Ball Rebound
- Shock Absorption: >40%
- Vertical Deformation: 4~8mm
- Length: Tailor Length For The Field Dimension
- Width: 1m/1.25m/1.5m
- Performance: Excellent Shock Absorption And Ball Rebound
- Installation: Weather Resistant
- Water Permeability: Good
- Service Life: More Than 20 Years
- Highlight: **Tear Resistant PE Foam Underlay, Player PE Foam Underlay**

Product Description

Tear Resistance Lawn Turf Pad PE Foam Underlay Playground Soft Layer HIC Tested Safety for Player

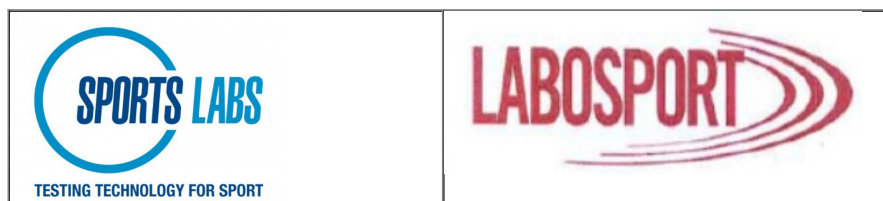

Company Introduction

Changzhou Taihui Sports Material Co.,Ltd is located in Changzhou City Wujin hi-tech development zone, is a high-tech enterprises dedicated to R&D and sales of polymer materials. The company has a professional technical team, strong research and development capabilities, relying on the Sichuan University and Changzhou university town, and good relations of cooperation between schools and enterprises has been established.

We always adhere to the belief that the product quality is the best solution. Now, more than ever, we insist on innovation to provide customers with the best quality service.

With the development of sports industry in recent years, artificial turf industry has also made rapid progress. With the improvement of requirements for the product quality, the existing site is not sufficient to meet people's requirements, in this case, environmental protection and elastic infill granule and shock pad came into being.

Our Certificate

Product Advantages

Light in weight, easy to transport and convenient installation
 Length can be customized according to the pitch
 Closed-cell foam, the product does not absorb water
 Perfect cutting technology ensures good water permeability and the stability
 Good shock absorption and ball vertical rebound
 No powdering or corruption, long life span
 Good weathering resistance
 Stable shock absorption
 No need of maintenance during daily use
 Good environmental performance and high recycling value
 Flame retardant

Product innovation points

- Adopting a professional ratio of composite process, both to increase the impact of absorption, but also reduce the vertical deformation.
- With double-sided synchronous slotted technology, to enhance the water drainage in four directions while reducing the stress.
- The perfect combination of new environmental protection resin and rubber foam, rubber has a strong tensile strength and softness, which ensure the strong elasticity and softness brings sense of comfort at the same time. The UV resistant film brings the long service life for the shock pad who is more environmentally friendly, no odor.
