Product Description

FIFA Approved Shock Pad Underlay for Soccer , Hockey Shock Pad For Artificial Grass sport field

Product Description

Its excellent water drainage makes it a very popular product for football, soccer, rugby, hockey, playground, multi-purpose area, putting green and landscape. It is light in weight, can be tailored according to your field, and easily installed as an underlay for grass with low labor cost.

In the sports industry, shock pads are often referred to as an “insurance policy.” According to FIFA-endorsed regulations, shock-attenuation testing is recommended for every sports field. For playgrounds, our shock pads will assure safety for you and your kids.

Features:

1. The shock pad underlay is very easy to install because of light weight and easy handling. Only one day needed to finish a standard size football field.
2. Closed cell PE foam doesn't absorb water; Which makes the installation will not be affected by bad weather.
3. Since edges of our shockpad underlay are cut neatly, all the joints can be easily and accurately welded.
4. The unique design offers excellent water drainage and avoid swelling or shrinking and thus the dimension always remains stable.
5. Excellent shock absorption and ball rebound performance.
6. Not rot or pulverize and long usage life.
7. Heavy-duty machine is no problem to move on its flat surface.
8. Roll length can be tailored to the field size, which reduces waste and labor force to utmost.
9. Stable shock absorption keeps the system sports performance stable for a long time

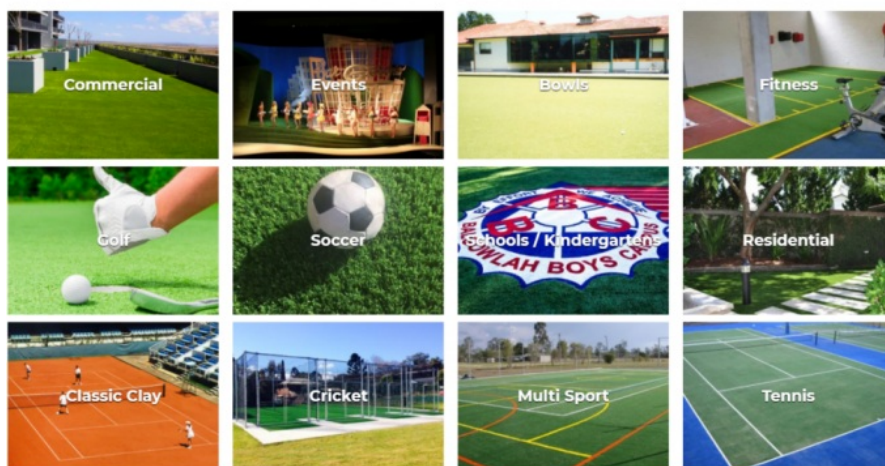

Product Specifications

Model:	T2504B/2506K
Thickness:	8-50 mm
Material:	New environmental friendly PE foam
Density:	30, 50, 70 kg/m ³
Color:	Black and blue or other colors
Features:	Closed cell foam, double-sided grooved
Size:	W1.5m * L50m or tailored length
Production time:	Normally within 10 days
Package:	Recyclable PE bag
