## Product Description

### Artificial Turf Shock Pad Playground Underlayment 8-20mm Thickness

Our shock absorbing underlay for artificial grass is made of three layers with film on the backing to enhance the tensile strength and UV protection in black and blue bicolor. It helps to reduce the overall cost of the artificial grass system, enhance the performance and extend the life span of the system.

#### Why artificial turf systems need to adopt shock-absorbing pad?

**1** The shock pad helps the artificial turf system provide superior resilience and impact resistance to reduce the injury which makes the artificial turf system comparable to the natural grass.

**2** With shock pad underneath, the resilience and impact resistance of the artificial system can be maintained for long service life.
