- Product Name: 15mm Thickness Artificial Turf Shock Pads Soft Fall
- Application: Soccer, Rugby, Hockey, Playground, Golf
- Thickness: 8mm-100mm
- Length: Tailored Length For The Field Dimension
- Density: 30, 50, 70, 90 Kg/m³
- Service Life: More Than 20 Years

Description

Our shock absorbing underlay for artificial grass is made of three layers with film on the backing to enhance the tensile strength and UV protection in black and blue bicolor. It helps to reduce the overall cost of the artificial grass system, enhance the performance and extend the life span of the system.

Product Innovation points:

1. Layered compound proportion 4:6, to maximize shock absorption and minimize vertical deformation. With double-sided synchronous grooved technology, to enhance the water drainage in four directions while reducing the stress.
2. Vertically and horizontally water drainage in four directions, and installation more even.
3. The perfect combination of rubber and resin, as rubber has strong tensile properties, which can not easily be torn during the installation
4. Adopting a professional ratio of composite process, both to increase the impact of absorption, but also reduce the vertical deformation.
5. The backing film can enhance the breaking force and it is not easy to be damaged during the installation. It also has excellent UV-resistance and Odor-resistance.

Applications

Products are mainly used for soccer, rugby, hockey, badminton, golf greens, golf mats, children safety system, tennis and sports recreation area.

研发&资质

泰辉对新技术的开发提高了产品的技术含量和附加值
The development of new technologies by Taihui improves the technical content and added value of products

高科技是第一竞争力
泰辉人注重研发投入，中心配备有现代化产品研发设施，高薪聘请了各领域的精英专家，并给他们提供了优良的科研和生活条件，研发中心与生产和销售部门密切合作，形成了研、产、销一体化的完整技术链条，为产品的持续发展注入了强劲的动力。

High technology is the most competitive force
Recent years, we have increased the theoretical research and technology development efforts, and improved technical content of products and added value.
We invited heavily in the construction of the R & D center, and the center configured of modern product and R & D facilities, we hired senior experts in various fields, and offered them good scientific research and living conditions. The R & D center, production and sales departments collaborating closely, to form an efficient technological innovation mechanism with integration of research, production and marketing, which has injected a strong impetus to our continuous development.

Our Strength

Extensive production and operation experience: we are specialized in shock pad and infill granules for artificial grass for over 10 years.

Stable quality and on-time delivery: with our workshop, we can control the quality from raw material to each production process. What's more, we have some stock on the popular items, which means we can meet your urgent need and can ensure the delivery time.
Superior production equipment: we own precision machine controlled by computer system and other advanced equipment. Our technicians will do regular scheduled maintenance on these machines to ensure them work well.
Customized: the color, length and thickness can all be customized according to the demand of customers.
High quality raw material
After-sale service: with more than 3,000 pitches around the world, we have earned good reputation among our worldwide partners.
Our certificate includes LABOSPORT, SPORTSLABS, SGS.
Easy to install and short delivery time
Installation support and professional consultant teams

Our Advantages

We are committed to serve the global market, who is undoubtedly the most advanced plant among the industry.

- * Modern logistics system
- * Strict purchasing control
- * Secure storage environment
- * Extensive capabilities
- * Professional production line
- * First-class environment
- * Automatic packing production line
