Product Description

Outdoor Artificial Turf Infill Synthetic Grass UV Resistant , Rubber Granules

Description:

TAIHUI infill granule is a new eco-friendly rubber granule infill to provide the best sports performance for the artificial grass pitch.
TAIHUI infills provide excellent ball rebound just as if it was on the natural grass, it can protect players from scratches or abrasions.
Stable infill system can guarantee the stability of the trampling and running of the athletes, which is comparable to a good natural soccer pitch.
TAIHUI infills have excellent resistance to UV, slowing down the aging, which helps the pitch with a longer service life.
Without overheating the space at high temperature, and TAIHUI infill can make the ground temperature lower than that with the traditional rubber infills.
TAIHUI granules in hollow shape reduce the bulk density and the overall costs.
TAIHUI owns good value of the recycling.
