

## FIFA Certified Artificial Turf Shock Pad Underlay Fire Retardant 10mm 12mm 15mm Thickness

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: SGS/LABOSPORT
- Model Number: T3010G
- Minimum Order Quantity: ACCORDING TO THE DEMAND FROM THE CUSTOMER
- Price: By negotiation
- Packaging Details: One roll Packed in recyclable PE bag
- Delivery Time: One week after received the deposit
- Payment Terms: L/C, T/T
- Supply Ability: 500,000 sqms per month

#### Product Specification

- Product Name: FIFA Certified Artificial Turf Shock Pad Underlay Fire Retardant 10mm 12mm 15mm Thickness Comply With EN15530-4
- Sports: Soccer, Rugby, Hockey, Baseball, Golf Greens, Golf Mats,
- Size: Tailored Length For The Field Dimension
- Width: 1m/1.25m/1.5m
- Packing: In Roll In Recyclable PE Bag
- Performance: Reduce The Overall Cost Of The Turf System
- Highlight: **FIFA Certified Artificial Turf Shock Pad, Artificial Turf Shock Pad Underlay, Artificial Turf Shock Pad Fire Retardant**

## Product Description

FIFA Certified Artificial Turf Shock Pad Underlay Fire Retardant 10mm 12mm 15mm Thickness Comply with EN15530-4

### Why artificial turf systems need to adopt shock-absorbing pad?

1. The shock pad helps the artificial turf system provide superior resilience and impact resistance to reduce the injury which makes the artificial turf system comparable to the natural grass.
2. With shock pad underneath, the resilience and impact resistance of the artificial system can be maintained for long service life.

Athletes deserve the best playing surface available and when it comes to artificial turf sports fields you need to address three primary concerns: impact absorption, traction/stability, and dealing with the dangerously high temperatures found in the old turf systems. Join the movement and let's build a future of safe, high-performance sports fields!

### Product Innovation Points

Layered compound proportion 4:6, to maximize shock absorption and minimize vertical deformation. With double-sided synchronous grooved technology, to enhance the water drainage in four directions while reducing the stress.
Cutting grooves vertically and horizontally with holes to make sure water drainage in four directions, and installation more even.
The perfect combination of rubber and resin, as rubber has strong tensile properties, which can not easily be torn during the installation
Adopting a professional ratio of composite process, both to increase the impact of absorption, but also reduce the vertical deformation.
The backing film can enhance the breaking force and it is not easy to be damaged during the installation. It also has excellent UV-resistance and Odor-resistance.

### Product Specifications

Model:	T3010G
Thickness:	8-30 mm
Material:	New environmental friendly PE foam
Density:	30,50,70,90 kg/m <sup>3</sup>
Color:	Any color at your option
Features:	Closed cell foam
Size:	W1.5m * L50m or tailored length
Production time:	One week
Package:	Recyclable PE bag

## Test Certifications

## Scope of Application

**Football**

**Baseball**

**Rugby**

**Hockey**

**Playground**

**Golf**

## Our Workshop

## Installation on Site

### Our Strength

1. Extensive production experience: we are specialized in shock pad and infill granules for artificial grass for over 10 years.
2. Stable quality and on-time delivery: with our workshop, we can control the quality from raw material to each production process. What's more, we have some stock on the popular items, which means we can meet your urgent need and can ensure the delivery time.
3. Superior production equipment: we own precision machine controlled by computer system and other advanced equipment. Our technicians will do regular scheduled maintenance on these machines to ensure them work well.
4. Customized: the color, length and thickness can all be customized according to the demand of customers.
5. High quality raw material.
6. After-sale service: with more than 3,000 pitches around the world, we have earned good reputation among our worldwide partners.
7. Our shock pad and infill certificate includes LABOSPORT, SPORTSLABS, SGS.
8. Easy to install and short delivery time.

**9. Installation support and professional consultant teams.**

**We manufacture shock pad underlay and rubber granule infill to support artificial turf pitch for sports and landscaping. Welcome to visit [www.taihuisports.com](http://www.taihuisports.com). Trust we will support you by excellent quality and friendly price. Our products will make your artificial turf pitch fantastic! [www.taihuisports.com](http://www.taihuisports.com)**

**Welcome for any inquiry on our products!**
