Product Description

PE Foam Two Sides Grooved Water Proof Synthetic Grass Underlay Various Thickness For Multiple Uses Long Lifespan

Product Advantages

1	Our product is light in weight and easy to install which shorten the installation period and reduce the cost.
2	Product has excellent shock absorption and ball rebound performance, bring happiness to the sports and avoid injury, which can be close to the natural grass feeling at the most.
3	Roll length can be customized according to the pitch
4	No pulverize or rot, long life span
5	Closed-cell foam product does not absorb water, which makes the performance more stable, and installation easier.
6	The two-way grooved design ensures that the product installation is more even and not affected by the weather.
7	Special grooved design ensures the good water permeability, so there is no water on the artificial grass, and activities can be proceeded in the rainy days.
8	Elegant appearance and strong sense of comfort.

Product Innovation Points

Layered compound proportion 4:6, to maximize shock absorption and minimize vertical deformation. With double-sided synchronous grooved technology, to enhance the water drainage in four directions while reducing the stress.
Cutting grooves vertically and horizontally with holes to make sure water drainage in four directions, and installation more even.
The perfect combination of rubber and resin, as rubber has strong tensile properties, which can not easily be torn during the installation
Adopting a professional ratio of composite process, both to increase the impact of absorption, but also reduce the vertical deformation.
The backing film can enhance the breaking force and it is not easy to be damaged during the installation. It also has excellent UV-resistance and Odor-resistance.
