

Polyethylene Crosslink Foam Sheets 20mm PE Foam Artificial Grass Shockpad Underlay

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: SGS/LABOSPORT
- Model Number: T2504B/2506K
- Minimum Order Quantity: ACCORDING TO THE DEMAND FROM THE CUSTOMER
- Price: By negotiation
- Packaging Details: One roll Packed in recyclable PE bag
- Delivery Time: 10 days after received the deposit
- Payment Terms: L/C, T/T
- Supply Ability: 300,000 sqms per month

Product Specification

- Product Name: 20mm Crosslink Foam Sheets For Artificial Turf Soccer Pitch Construction Close Celled Porous Shee
- Sports: Multi-purpose And All Sports
- Thickness: Customized
- Material: PE Foam New Material In 3 Layers
- Dimension: Avoid Swelling Or Shrinking And Thus The Dimension Always Remains Stable.
- Cost: Highest Costing Performance.
- Installation: Very Conveinent
- Highlight: **Polyethylene Crosslink Foam Sheets, Crosslink Foam Sheets 20mm, PE Foam Artificial Grass Shockpad Underlay**

Product Description

Polyethylene Crosslink Foam Sheets Artificial Turf Underlay Anti Vibration

Performance

Our product is light in weight and easy to install which shorten the installation period and reduce the cost.
Product has excellent shock absorption and ball rebound performance, bring happiness to the sports and avoid injury, which can be close to the natural grass feeling at the most.
Roll length can be customized according to the pitch
No pulverize or rot, long life span
Closed-cell foam product does not absorb water, which makes the installation easy and not influenced by the weather.
Heavy-duty machine has no problem to move on its flat surface.
Special porous design ensures the good water permeability, so there is no water on the artificial grass, and activities can be proceeded in the rainy days.
Elegant appearance and strong sense of comfort.
Three layers' design to maximize shock absorption and minimize vertical deformation

Product innovation points

Our shock pad has been adopted proportion 4:6 and three-layer composite technology. Compared with one-time foaming process product, one-time foaming product is easily deformed, and elasticity lost too quickly make it difficult to restore elasticity after long-term use.
The perfect combination of new environmental protection resin and rubber foam, rubber has a strong tensile strength and softness, which ensure the strong elasticity and softness brings sense of comfort at the same time. The UV resistant film brings the long service life for the shock pad who is more environmentally friendly, no odor.
Three-layer structure and characteristics of rubber makes the shock pad with the strong tensile strength, which will protect the product from deformation and damage during the installation. Tensile strength of one-time forming process product is poor.
Cutting grooves vertically and horizontally with holes to make sure water drainage in four directions, and installation more even.

Our Certificate

FIFA certified field testing on Site

Trust we will support you by excellent quality and friendly price. Our products will make your artificial turf pitch fantastic!
