

## Hockey Rugby Artificial Grass Foam Underlay Shock Absorber For Football Soccer

### Our Product Introduction

for more products please visit us on [shockpadunderlay.com](http://shockpadunderlay.com)

#### Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: SGS
- Model Number: T3010G
- Minimum Order Quantity: 1,000 sqms
- Price: By negotiation
- Packaging Details: One roll Packed in recyclable PE bag
- Delivery Time: 10 days after received the deposit
- Payment Terms: T/T
- Supply Ability: 500,000 sqms per month

#### Product Specification

- Product Name: Football Soccer Hockey Rugby Foam Shock Pad Artificial Grass Shock Absorbing Pad Underlay
- Sports: Soccer, Rugby, Hockey, Baseball, Golf Greens, Golf Mats,
- Thickness: All Available
- Size: Tailored Length For The Field Dimension
- Width: 1m/1.25m/1.5m/1.8m
- Packing: In Roll In Recyclable PE Bag
- Performance: Reduce The Overall Cost Of The Turf System
- Highlight: Rugby artificial grass foam underlay, Hockey artificial grass foam underlay, Football artificial turf foam underlay

## Product Description

### Football soccer hockey rugby Foam Shock Pad Artificial Grass Shock Absorbing pad underlay

#### Product innovation points

Four-side symmetric inside and four-side skew-symmetric triangle outside, making good use of physics, therefore the structure more stable
The perfect combination of rubber and resin, as rubber has strong tensile properties, which can not easily be torn during the installation
Layered compound proportion 4:6, to maximize shock absorption and minimize vertical deformation
Diamond-shaped structure on the surface increases the coefficient of friction, and hard for pad to slide after covering the artificial grass.

#### Advantage

1.	Installation of our shock-pad system is more convenient as the material is lightweight and easy to handle.
2.	Roll lengths can be manufactured to client's requirements to ensure no wastage.
3.	The closed-cell Foam does not absorb water; therefore inclement weather does not hinder the laying of pad.
4.	Perfect cutting technology ensures good water permeability and the stability.
5.	Excellent 'shock absorption' and 'ball rebound' characteristics.
6.	The surface has an prolonged life span and is not prone to deterioration.
7.	Good weathering resistance.
8.	Stable shock absorption.
9.	No need of maintenance during daily use.
10.	Good environmental performance and recycling value.
11.	Flame retardant.

#### Our Achievements on Site

#### Our Certificate

**We manufacture shock pad underlay and rubber granule infill to support artificial turf pitch for sports and landscaping. Trust we will support you by excellent quality and friendly price. Our products will make your artificial turf pitch fantastic!**

**Welcome for any inquiry!**
