## Product Description

Grass Underlay For Rugby Baseball Hockey Pitch, Underlayment for IN-SITU field, 20mm 30mm Thickening

### Product Features

Layered compound proportion 4:6, to maximize shock absorption and minimize vertical deformation. With double-sided synchronous grooved technology, to enhance the water drainage in four directions while reducing the stress.
Cutting grooves vertically and horizontally with holes to make sure water drainage in four directions, and installation more even.
The perfect combination of rubber and resin, as rubber has strong tensile properties, which can not easily be torn during the installation
Adopting a professional ratio of composite process, both to increase the impact of absorption, but also reduce the vertical deformation.
The backing film can enhance the breaking force and it is not easy to be damaged during the installation. It also has excellent UV-resistance and Odor-resistance.
