

## Patterned Pad Artificial Grass For Football Field 30/50/70 Density And 3000 Mm/hr Water Drainage

Our Product Introduction

for more products please visit us on [shockpadunderlay.com](http://shockpadunderlay.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI SPORTS
- Certification: FIFA
- Model Number: TP2510R
- Minimum Order Quantity: 1000
- Packaging Details: In PP bag
- Delivery Time: 7-10 days
- Payment Terms: T/T
- Supply Ability: 300000square Meters Per Month

### Product Specification

- Design: Special Grooved Design
- Safe For Children: Yes
- Package: One Roll In Recyclable PE Bag
- Density: 30/50/70
- Usage: Sports Field
- Shock Absorption: 35%
- Material: Polyethylene Foam
- Waterproof: Yes
- Water Drainage: 3000 Mm/hr
- Uv Resistance: Excellent
- Weather Resistance: Excellent
- Highlight: **Patterned Pad Artificial Grass, 70 Density Artificial Grass**

Building 3A-602, R&D Hub, Science&education Tower,Wujin District, China.

### Basic Info.

Model NO.	
TP2510R	
Thickness	
8mm~20mm	
Shock Absorption Rate	
>35%	
Color	
Red/Customized	
Installation Ways	
Fixed	
Usage	
Outdoor, Indoor	
Durable Years	
20 Years	
Feature	
Waterproof	
Material	
Polyethylene	
Function	
Protection	
Width	
1.5m	
Length	
Customize	
Transport Package	
Rolls in PP Bag	
Trademark	
OEM	
Origin	
China	
Production time	
7 days	

### Product Description

2025 Wholesale  
Artificial grass New  
Patterned Pad for  
Football Field

#### 1.DESCRPTION

Artificial turf

polyethylene Shock Pad

100% Eco-Friendly

Non-toxic Odorless

**A. Double High-  
Temperature Molding for  
Enhanced Durability**

The product undergoes a  
secondary high-  
temperature molding

process, resulting in stronger load-bearing capacity and better elasticity.

Resistant to flattening or loss of elasticity, significantly extending its lifespan and reducing long-term costs.

#### **B. High-Temperature Molding Ensures Safety and Eco-Friendliness**

During the high-temperature molding process, VOCs (Volatile Organic Compounds) are fully evaporated, ensuring the product is free from harmful substances such as hormones, carcinogens, and heavy metals.

Safe for human health and compliant with environmental and safety standards.

#### **C. Innovative Structural Design for Superior Stability**

Features a unique structural design with exceptional tensile strength and flatness.

Effectively minimizes bulging caused by thermal expansion and contraction, ensuring long-term flatness and aesthetics of the field.

#### **D. Triangular Wave Diamond Friction Surface for Enhanced Stability**

The contact surface is designed with a triangular wave diamond pattern, significantly increasing friction between the turf and the underlay.

Effectively reduces wrinkling and cracking caused by thermal expansion and contraction, extending the lifespan of the turf.

2.SPECIFICATION

Product Name	New Patterned Shock Pads For Artificial Grass /Turf
Material	Polyethylene
Thickness	8mm~20mm
Density	30/50/70
Color	Red or as your requirements
Shock Absorption	≥35
Drainage holes	As your required shape and size
Width	1.5m
Length	As your requirements
Package	In PE bag
Usage	Main: Sports field(football field rugby field hockey field baseball field and ect on ) Others: Kindergarten,playground, courtyard, amusement place, residential decoration, roof paving
