

Experience Durability Safety TPE Infill Granules Low Bulk Density Option For Artificial Turf Worldwide

Our Product Introduction

for more products please visit us on shockpadunderlay.com

Basic Information

- Place of Origin: China
- Brand Name: TAIHUI
- Certification: SGS, LABTEST, CE
- Model Number: T14R, T15R
- Minimum Order Quantity: 10 TON
- Price: UP 300\$/TON
- Packaging Details: pallet
- Delivery Time: Around 10 days
- Payment Terms: T/T, L/C, D/P

Product Specification

- Material: TPE
- Diameter: 2-4mm
- Appearance: Prism hollow Extruded On Four Sides, surrounded By Four T Shapes
- Shore Hardness: A/15:74
- Tensile Strength: 2.5MPA
- Elongation At Break: 700%
- Certifications: CE, SGS, ISO9001
- Bulk Density: 0.45g/cm³
- Anti-static: B
- UVA: 5000H
- UVB: 3500H
- Elastic Hardness: ISO 868:2003
- Reaction Filling: EN 1097-3
- Highlight: Low Bulk Density Infill Granules, Available In Many Colors, TPE Infill Granules

Product Description

Upgrade Your Turf System with High-Performance TPE Infill Granules Preferred Choice for Artificial Turf Worldwide FIFA-Standard Delivering Quality and Value Durability, Safety, low-bulk density.

1.Description:

TAIHUI TPE infill granules are specially developed to meet the performance, safety, and environmental demands of modern artificial turf systems. Designed for both sports and landscaping applications, our TPE infill offers outstanding resilience, color stability, and UV resistance while providing excellent ball rebound and shock absorption.

Why Choose TAIHUI TPE Infill Granules for Your Artificial Turf System?

When it comes to building a high-performance, durable, and eco-friendly artificial turf system, selecting the right infill is essential. At TAIHUI SPORTS, we specialize in advanced **TPE infill granules** that offer a superior solution for sports fields, landscapes, and playgrounds.

What Makes Our TPE Infill Granule Stand Out?

We produce a wide range of quality TPE infill granules to meet diverse needs. Among them, our most popular and FIFA-standard models are **T14R and T15R**, known for their consistency and

performance. Here are the key features that set our infill apart:

High Polymer Content: Ensures exceptional resilience and elasticity for long-term use.

Excellent Environmental Performance: Non-toxic, odorless, and fully recyclable.

High Stability: Maintains consistent shape and quality in varying weather conditions.

UV-Resistant: Strong resistance against sun exposure, reducing fading and degradation.

Outstanding Ball Rebound Performance: Creates a natural playing experience with excellent energy return.

Protects Artificial Grass: Reduces wear and extends turf lifespan.

Low Bulk Density: Lightweight and cost-effective in transportation and application.

Vibrant, Long-Lasting Coloring: Available in customized colors for different field types.

FIFA Standard Models: Our T14R and T15R models meet FIFA's quality requirements.

Certified Quality You Can Trust

Our TPE infill granules are backed by internationally recognized certifications, including:

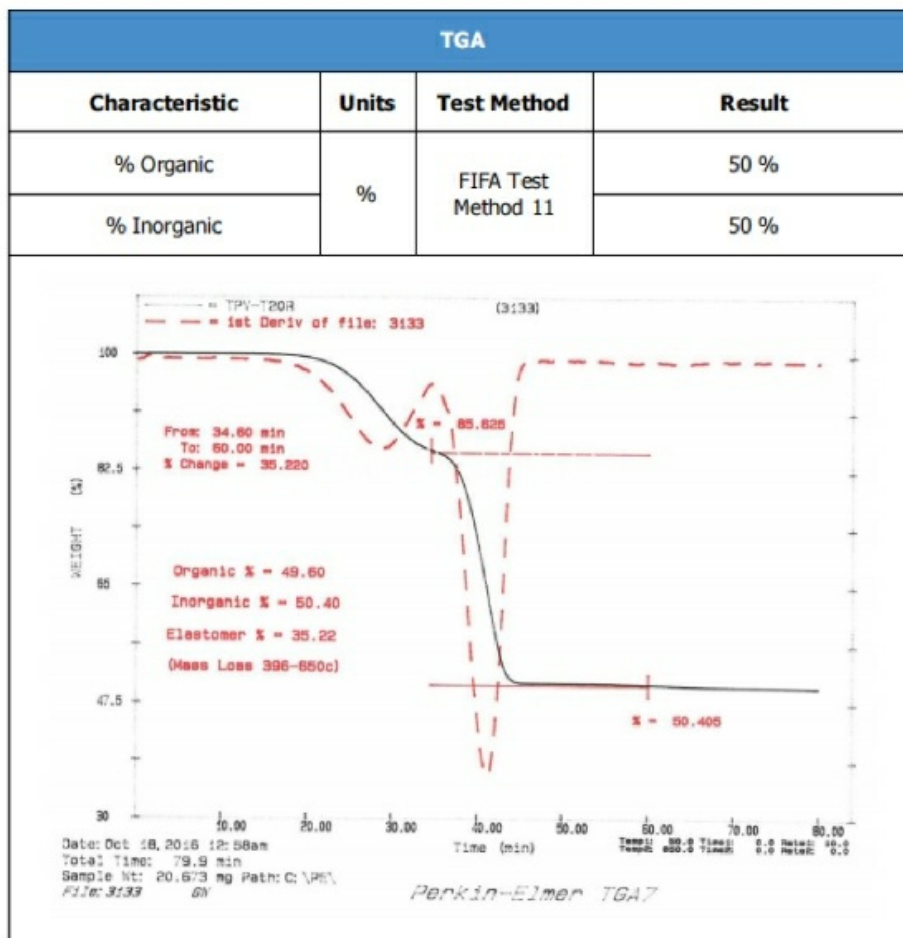

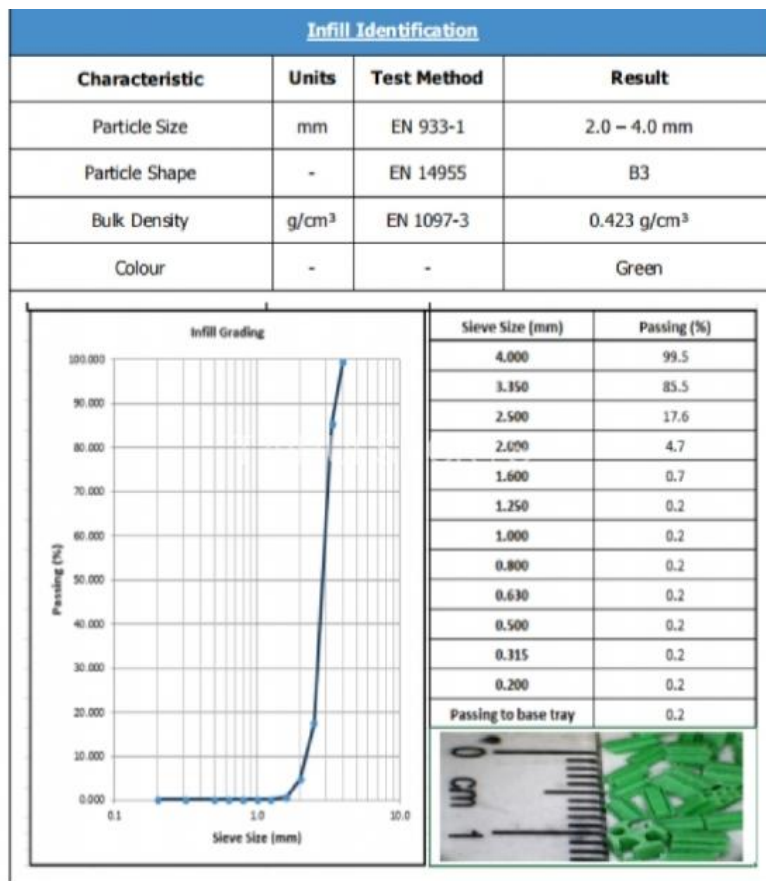

REACH & RoHS Compliance

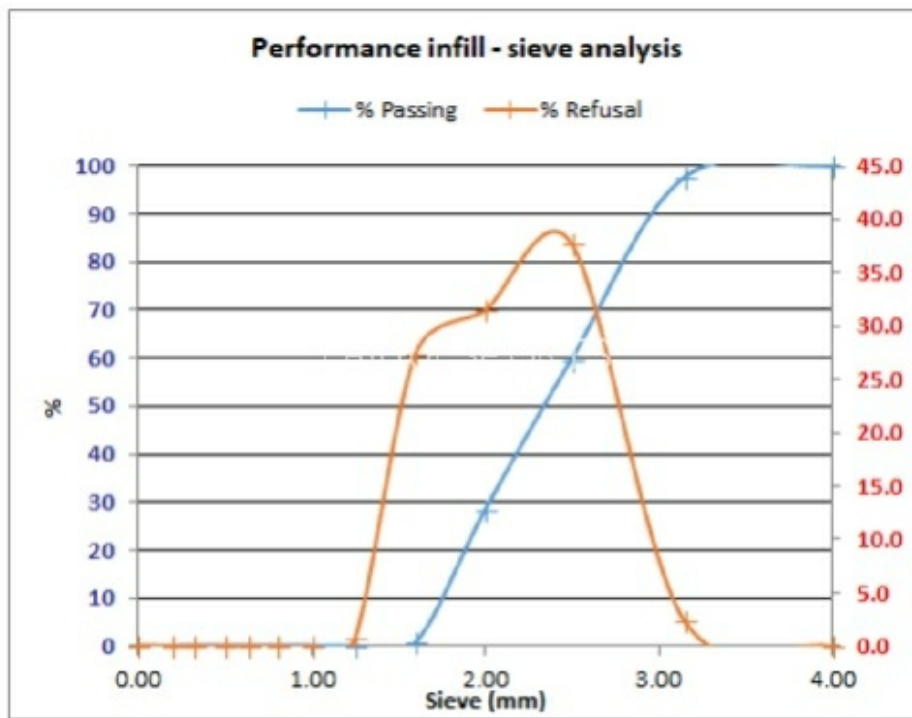

EN 71-3 Safety Standard

UV Aging Resistance Test Reports

FIFA Quality Pro Infill Test Reports

Trusted Worldwide

We are proud to support numerous global projects with consistently positive feedback from our partners. Below are some real-world application photos from our satisfied customers, showcasing the durability, color quality, and playability of our infill granules.

We're here to help you find the perfect solution for your turf system—whether it's a professional football pitch or a community playground. With **competitive pricing**, strong supply capabilities, and responsive service, TAIHUI is your trusted partner in the artificial turf industry.
