## Product Description

### Proven by FIFA Quality Programme

Taihui football field systems, made with new generation yarn technology, upgraded coating and backing materials, provides a high quality surface with excellent playing characteristics and extensive durability. Taihui is committed to providing quality football turf, fulfilling a set of stringent requirements and operating a licensing scheme by the **FIFA Quality Programme** for Football Turf.

### Excellent Sports Performance

Taihui football turf systems are specially designed to combine playability, durability and the demands of football activities which enable athletes to achieve perfect performance. Taihui independently set up strict control tests for quality, durability and performance to guarantee the surface systems properties meet the industry standards. Our flexibility to accommodate customized demand sets us apart from competitors.

#### Durability:

Taihui sport series keep outstanding wear resistance which ensures minimum of thirty thousand cycles, with the high abrasion resistance product that can achieve around three hundred thousand cycles with the Lisport test.

#### UV Stability:

Taihui also provides powerful UV defence, and have excellent experience to keep over 4-5 Grey scale after artificial weathering.

#### Tuft Withdrawal Force:

According to FIFA standard, tuft withdrawal force requires  $\geq 40\text{N}$  at  $70^{\circ}\text{C}$  and also after 336 hours immersion in water, Taihui meets and sets much higher tuft lock standards for sport turf systems.

### Chosen By the world

As a comprehensive solution supplier for all sports surfaces, Taihui Sports is specialized in developing and manufacturing the professional artificial turf systems for various sports applications. Taihui Sports is quite rightly regarded as a preferred artificial turf manufacturer and supplier with products exported to 100 countries and regions around the world. FIFA certified pitches with Taihui Sports football turf systems have been installed throughout Europe, Asia, America and Africa.
