2. Advantage

- (1) We use top-class PE materia as raw material makes our grass free to be used without smell.
- (2) Drain hole was designed to help water permeable automatically and keep the surface dry with no water accumulation
- (3) We apply flame retardant material to keep our product safety from open flames
- (4) Keep refreshing during sunburned and rainy days without fading
- (5) Convenient for cutting, it is available to cut the extra edge according to your field

3. Project Show and Package

We can provide complete FIFA system, including artificial grass, shock pad and infill granule, which can be directly used in your new fields. One-station service!

About us

Changzhou Tahui Sports Material Co., Ltd., located in Changzhou City Wujin High-Tech Development Zone, is a high-tech enterprise dedicated to the R&D and sales of polymer materials. The company has a professional technical team and strong research and development capabilities, supported by collaborations with Sichuan University and Changzhou University Town, establishing strong school-enterprise cooperation relations. We always adhere to the belief that product quality is the best solution. Now, more than ever, we prioritize innovation to provide customers with the highest-quality service.

With the rapid development of the sports industry in recent years, the artificial turf industry has also made significant progress. As quality requirements for products continue to rise, existing solutions no longer fully meet market demands. In response, environmentally friendly elastic infill granules and shock pads have emerged as advanced solutions.
