

New-Style Shock Pad with Laminated Cloth and 3D Nylon Cloth PE Foam under Artificial Grass for Sporting Field

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Certification: FIFA
- Minimum Order Quantity: as our requirement
- Price: by negotiation
- Packaging Details: PE bags
- Delivery Time: about 7-10 days after we receive the deposit
- Payment Terms: L/C,T/T
- Supply Ability: 300,000sqms per month

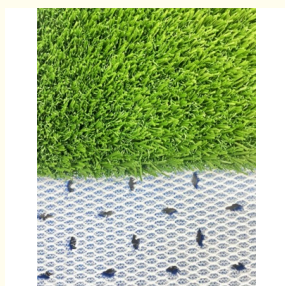

Product Specification

- Package: One Roll In Recyclable PE Bag
- Color: Black
- Uv Resistant: Yes
- Design: Special Porous Design
- Uv Resistance: Yes
- Roll Size: Customize
- Easy To Use: Yes
- Width: 1.5m
- Installation: Labor Cost Saving
- Durability: High

Product Description

1.Product Description

product name	shock pad with laminated cloth and 3D nylon cloth for under artificial grass
thickness	8-15mm
density	30-80kg/m3
package	roll
application	soccer field, hockey field, rugby field, golf field, etc
color	green/blue/white,etc

2. Advantage

a. Excellent shock absorption and buffering performance

High elasticity: The XPE material is soft and elastic, which can effectively absorb impact forces (such as vibrations during falls or jumps), reducing the risk of sports injuries. It is suitable for children's play areas, sports fields, etc.

Long-term resistance to pressure: It does not deform easily. Even after being under pressure for a long time, it can still return to its original shape, thereby extending its service life.

b. Lightweight and easy to install

c. Waterproof and moisture-proof, with strong weather resistance

Closed-cell structure: Does not absorb water, preventing mold or rot caused by rainwater soaking, suitable for long-term outdoor use.

Resistant to high and low temperatures (-40°C to 80°C): It does not easily become brittle or soft under extreme weather conditions, and is suitable for use in various climate regions.

d. Environmental Safety

Non-toxic and odorless: Compliant with environmental standards (such as SGS certification), free of harmful substances like heavy metals and formaldehyde, suitable for children's activity areas.

Recyclable: Some XPE materials can be decomposed or recycled, reducing the environmental burden.

3. Factory and Container-loading photo

About us

Jiangsu Taio Sports Industry Co., Ltd. is a group company of sports industry integrating production, operation, and investment. The artificial grass related products branded as "TAIHUI" and the sport flooring branded as "CHANGYU" are included as the core product lines of the company for promoting group development and disposition, carrying out business sections such as sports venue facilities and sports events organization, etc. Sports investment also serves as a core sector of the company, which will conduct investments for sports new materials smart sports as well as Artificial Intelligence (AI) in the forms of shares and finance.
