### 2. Advantage

- (1) **Friction coefficient moderate:** good resilience, sliding friction; the coefficient is moderate and meets the standard; performance requirements for sports venues
- (2) **Double sided design low hear reflection:** no sweat absorption, no moisture, no generation, lingering odor, no climate zone; restrictions, no water accumulation on site after rain
- (3) **Strong weight-capacity:** the product has good weight capacity ad pressure resistance ( this test is only for product performance)
- (4) **Square buckle:** Stronger, there is a gap in the buckle, better to expend with heat and contract with cold, not easy to break
- (5) **Easy to install and maintain:** it only needs to be washed with water directly outside, and it can be cleaned indoors with a mop, which is easy to maintain and low in cost
