Pattern 3  
Spec : 304.8x304.8x16.5(mm)

Pattern 2

Spec: 304.8x304.8x14(mm)

## 2. Installation

- (1) Put the tiles in the same direction
- (2) Put the lock over the lock
- (3) Assemble the tiles with plastic hammer, hands and foot
- (4) Assemble all tiles in one
- (5) A whole court is finished

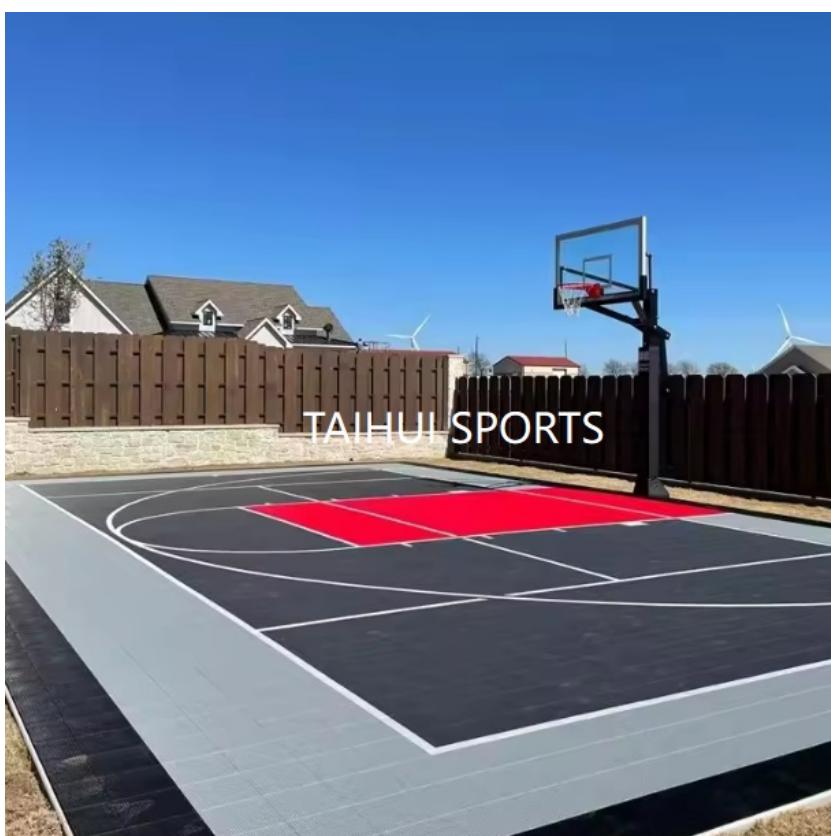

All of our interlocking flooring is made from polypropylene. This type of plastic is impact resistant, chemical resistant and holds color without fading.

The material is impact resistant and absorbs shock, allowing players more comfort when making jump shots, running, and performing other quick moves that can be hard on the joints.

With Outdoor Sports Tiles, the weather doesn't have to play a factor in your game. On those hot summer days, you'll see that court tiles don't get as hot under the sun as concrete does. Plus, these tiles get more slip resistant even when wet.

PP Flooring sports tiles are interlocking flooring solution suitable for indoor or outdoor use, available in various colors and excellent for most sports. Assembles in just minutes over any hard, flat surface. Use for: hockey, basketball, football, field hockey, indoor football, handball, volleyball, lacrosse etc. Long durability, minimal maintenance and easy installation.

## 3. Project Show

- 1.What is your MOQ?  
A: over 500sqms
2. What payment term do you accept?  
A: TT will be better, L/C also is okay
3. Are you manfacturer?  
A: yes, we are
