Shock Pad

Taihui Shock Pad Advantages

Lightweight and easy to install, shortening both installation time and installation costs

Excellent vibration absorption and ball rebound performance to avoid injuries

Customized roll length according to site size to reduce on-site installation losses

The product will not rot or powder, and has a long service life

Closed-cell foaming ensures that the product does not absorb water, making the product performance more stable

Double-sided slot design ensures that the product is laid more smoothly and is not affected by weather

Special slot design ensures good water permeability and helps lawn drainage

The product has a beautiful appearance and provides a comfortable aesthetic

About Our Company

Changzhou Tahui Sports Material Co., Ltd., located in Changzhou City Wujin High-Tech Development Zone, is a high-tech enterprise dedicated to the R&D and sales of polymer materials. The company has a professional technical team and strong research and development capabilities, supported by collaborations with Sichuan University and Changzhou University Town, establishing strong school-enterprise cooperation relations.

We always adhere to the belief that product quality is the best solution. Now, more than ever, we prioritize innovation to provide customers with the highest-quality service.

With the rapid development of the sports industry in recent years, the artificial turf industry has also made significant progress. As quality requirements for products continue to rise, existing solutions no longer fully meet market demands. In response, environmentally friendly elastic infill granules and shock pads have emerged as advanced solutions.
