

Anti-Skid Waterproof High Compression Resistance PP Interlocking Tiles for Modular Sports Flooring

Our Product Introduction

for more products please visit us on shockpadunderlay.com

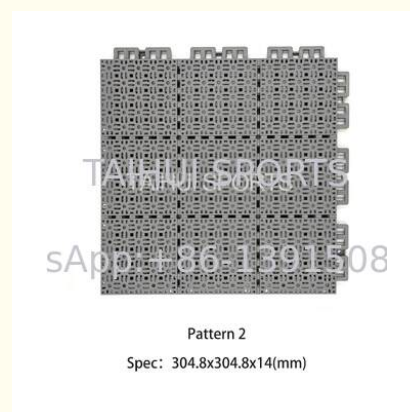

Basic Information

- Place of Origin: CHINA
- Brand Name: TAIHUI
- Minimum Order Quantity: 500sqms
- Price: By negotiation
- Payment Terms: L/C,T/T
- Supply Ability: 300,000sqms

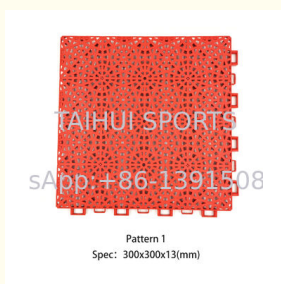

Product Specification

- Material: Polypropylene (PP)
- Size: 300*300mm, 304.8*304.8mm, Etc.
- Design: Special Pattern Design
- Feature: Interlocking
- Shape: Square
- Color: Red; Blue; Green; Optional
- Water Resistance: Yes
- Temperature Resistance: Yes
- Easy To Install: Yes
- Compression Resistance: High
- Soundin Sulation: High Sound Absorption
- Waterresistance: Waterproof
- Service Year: 8 Years
- Application: Indoor & Outdoor Sports Fileds
- Highlight: Anti-Skid PP Interlocking Tiles,

Product Description

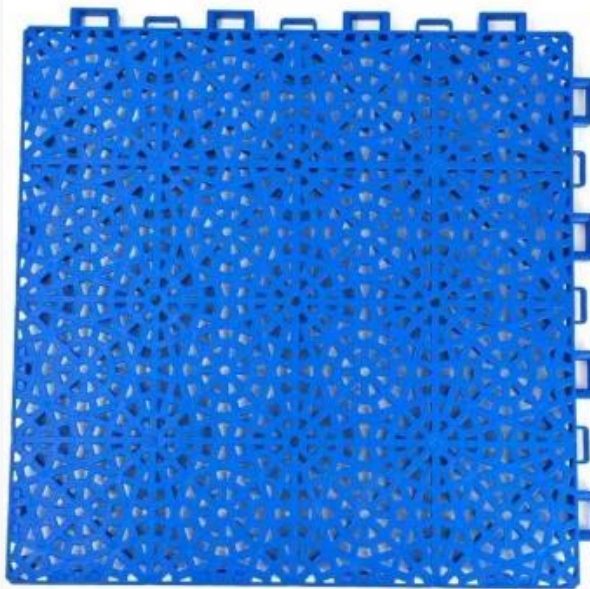

Hot Sale Anti-Skid Suspended Modular Polypropylene (PP) Interlocking Sports Portable Flooring Tiles

High-performance polypropylene interlocking flooring tiles designed for basketball courts, tennis courts, soccer fields, kindergarten playgrounds, and various sports applications.

Product Specifications

Specification	Details
Product Name	Sports Suspended PP Interlocking Flooring
Product Material	Polypropylene (PP)
Product Dimension	300*300mm, 304.8*304.8mm
Thickness	12mm/13mm/14mm/16.5mm; customized
Color	Grey; Red; Green; Yellow; customized
Impact Absorption	≥8%
Vertical Deformation	≤3.0mm
Temperature Resistance	Yes
Odor Level	Grade 2
Anti-Slip Value (20) /BPN	80-110
Ball Rebound Rate	≥75%
Harmful Substance Content	Compliant
Chemical Performance	Satisfied
Service Life	8 years
Applications	Basketball court, badminton, volleyball court, indoor football pitch, etc.

Pattern 1

Spec: 300x300x13(mm)

Pattern 3

Spec : 304.8x304.8x16.5(mm)

Pattern 2

Spec: 304.8x304.8x14(mm)

Key Advantages

Environmentally Friendly Material: Made of polypropylene (PP) material, food-grade, odorless, with environmentally friendly organic color powder additives.

Excellent Weather Resistance: No obvious changes after high- and low-temperature tests from -50 to 80 . Sports performance remains unchanged after 4000 hours of artificial accelerated aging test.

Professional Anti-Slip Design: Large contact surface anti-slip design helps protect people from slipping and injury during sports.

No Warping, No Displacement: Upgraded raw materials with automatic compensation for thermal expansion and contraction.

Good Impact Absorption Performance: Thickened and solidified bottom support structure protects athletes' knees and joints from injury.

Quick Installation: Simple construction with low ground foundation requirements for rapid assembly.

Convenient Maintenance: Single-piece replacement for individual problems reduces overall maintenance costs.

Eco material

Weather tolerance

Color retention

Good shock absorption

Easy to clean

Easy to install

Installation Process

Place the tiles in the same direction

Connect the lock over the lock mechanism

Assemble the tiles using a plastic hammer, hands, and feet

Connect all tiles together

Complete the entire court installation

All of our interlocking flooring is made from polypropylene. This type of plastic is impact-resistant, chemical-resistant, and holds color without fading. The material absorbs shock, allowing players more comfort when making jump shots, running, and performing other quick moves that can be hard on the joints.

With Outdoor Sports Tiles, weather doesn't play a factor in your game. On hot summer days, court tiles don't get as hot under the sun as concrete does. Plus, these tiles become more slip-resistant even when wet.

PP Flooring sports tiles are an interlocking flooring solution suitable for indoor or outdoor use, available in various colors and excellent for most sports. Assembles in just minutes over any hard, flat surface. Use for: hockey, basketball, football, field hockey, indoor football, handball, volleyball, lacrosse, etc. Long durability, minimal maintenance, and easy installation.

About Our Company

Changzhou Tahui Sports Material Co., Ltd., located in Changzhou City Wujin High-Tech Development Zone, is a high-tech enterprise dedicated to the R&D and sales of polymer materials. The company has a professional technical team and strong research and development capabilities, supported by collaborations with Sichuan University and Changzhou University Town, establishing strong school-enterprise cooperation relations.

We always adhere to the belief that product quality is the best solution. Now, more than ever, we prioritize innovation to provide customers with the highest-quality service.

With the rapid development of the sports industry in recent years, the artificial turf industry has also made significant progress. As quality requirements for products continue to rise, existing solutions no longer fully meet market demands. In response, environmentally friendly elastic infill granules and shock pads have emerged as advanced solutions.

Frequently Asked Questions

Are you a manufacturer?

Yes, we have been manufacturing and selling this product for over 10 years.

What payment terms do you accept?

TT (Telegraphic Transfer) is preferred, but L/C (Letter of Credit) is also acceptable.

Do you have your own forwarder?

Yes, we can arrange shipping for you through our logistics partners.

How long is your production time?

We offer quick delivery, with production time depending on order quantity.
